Conference: 6:00 PM (Prompt!)

Partnership for Growth is bringing together Italian Entrepreneurs and Silicon Valley Investors in an event you will not want to miss. We will have a live exchange between investors and innovators in both Silicon Valley and Italy. Come ready to ask questions and network.

The primary goal of the videoconference is to highlight the resources available in Silicon Valley to Italian tech entrepreneurs and to recruit a delegation to accompany Ambassador Spogli on his trip to Silicon Valley in early January. On that trip, the Italian delegation will see first hand how Silicon Valley grows companies so successfully.

Please send Prompt RSVP to Jacob Garrett at:
